The homepage provides the user with a list of destinations to choose from. Basic destination and site information is available for free. A safety icon leads into the safety page advocating safe diving practices and an info icon leads to descriptive and factual text about the destination. Each site is accompanied by a beautiful photograph and a brief summary for quick review. Unlock the premium content for site specific data, everything a diver would want to know about a site, together with a series of stunning, high definition images. Technical, wreck and cave diving sites contain a more specific combinations of images, maps and graphics to assist with dive planning.

"Our company is very excited to release an app that combines accurate, up-to-date information with high definition images; streamlining dive travel and dive planning in a unique way. In order to maintain the highest level of quality we will be innovative and creative, aligning ourselves with professional partners who understand that knowledge and experience are our key assets. We will continuously improve our product, keeping our destinations inspiring and our users engaged." Kim Davidsson, Partner

Global Dive Guide – Reefs of the Riviera Maya and Caverns of the Riviera Maya are available now. Basic content and functionality is available for free with premium content available via in-app purchase for \$3.99 USD per destination. More destinations are coming soon.
